

SCAVENGER HUNT

This 6 vs. 6 drill forces players to work on specific skills or game situations of the coach's choosing.

Each team is given a different task list for their scavenger hunt. The coach creates each team's task list based on what the players on those teams should be working on. The teams try to complete all of their tasks (complete their scavenger hunt) before the other team. To pursue completing the tasks, the two teams play a normal game or match, depending on how long it takes.

Coaches should choose tasks that best suits the team's specific needs.
